Latex Paint: Disposal Guidelines - CSUM

Latex paint is a water-based coating containing resins, solvents, pigments, and additives. It is durable, easy to apply, cleans up with soap and water, and it has replaced oil-based (solvent-based) paint in 85 percent of painting projects in California. In fact, over 58 million gallons of latex paint are sold annually.

Lead-based Paint Debris Disposal Guidance

Lead-Based Paint (LBP) means paint or other surface coatings that contain elevated concentrations of lead. Generally, such paints were used prior to 1978 when, at that time, the US Consumer Product Safety Commission implemented a legal maximum limit of lead content in house paint. The 1978 ruling did not apply to industrial applications.
